JOB VACANCY: MOBILE PLANT OPERATOR (YARD AND/OR SHIP LOADING)

This role involves the loading and unloading of HGV vehicles, the loading/feeding of shears and balers, moving of materials into stockpiles and loading ships as and when required. Depending on your experience and capability, you will be driving various heavy plant including 360 material handlers, wheel loaders etc as used within the metal recycling industry.

LOCATION: London

CONTRACT TYPE: Permanent

HOURS: 07:45 - 17:00 Monday - Friday. Weekend and shift work will be required from time to time.

MAIN DUTIES:

- Picking up and moving a variety of material, sometimes in confined spaces
- Feeding the shears and balers as directed and in line with business requirements
- Loading and unloading materials from heavy goods vehicles
- Loading ships in a safe and orderly manner
- Working as an exemplar in guiding others through the protocols of ship loading
- Carrying out daily machine start-up and shut-down procedures
- Carrying out daily machine checks
- Completing machine checklists on a daily basis
- Ensuring work is of a high standard
- Complying with all equipment operating systems
- Making written and/or verbal reports to line managers as required
- Carrying out any additional duties that may be reasonably requested from time to time
- Complying with Company policies and procedures as defined in the Employee Manual and your contract of employment

KEY COMPETENCIES:

- Ability to work safely and to maintain a safe working environment in line with company operating procedures and systems
- Ability to communicate with ships' staff to ensure ships are loaded/unloaded in accordance with Masters' requirements
- Ability to unload costal vessels
- Ability to organise and instruct staff to enable the loading/unloading of ships in accordance with company shipping checklists
- Ability to work as part of a team and to communicate effectively with other team members
- Ability to act as a role model and mentor to other team members
- Ability to work on own initiative as and when required
- Ability to identify changes in normal machine operating characteristics
- Ability to report any issues or problems that may be encountered with machinery or vehicles
- Ability to carry out daily machine checks
- Wearing correct PPE (Personal Protective Equipment) as instructed thereby ensuring minimum risk to personal health and safety
- Excellent time keeping and attendance
- A flexible approach including the willingness to work outside normal hours as and when required

ESSENTIAL SKILLS:

- Proven track record of working in a comparable role
- Proven ability of driving heavy mobile plant
- Proven ability to load ships and other vessels from the dockside (training can be given if already experience in mobile plant)
- Capable of conducting basic maintenance including, but not exclusive to; greasing, oiling and fuelling
- A full clean driving license
- Good literacy and numeracy skills
- NVQ Level 3 or above in a relevant subject or comparable work experience

DESIRABLE SKILLS:

- NVQ/ONC or equivalent qualifications in a relevant subject area
- GCSE Grade C or above in English & Maths
- Relative experience in metal recycling and other associated processes
- Able to interpret seagoing vessels' markings and therefore be able to estimate amounts loaded during ship loading
